

Rohit Singh

Location: Hyderabad, Telangana, India

E-mail: rk6109744@gmail.com *Phone:* +91 7447022913

LinkedIn: linkedin.com/in/rohit-kushwah-3512b0301 *GitHub:* github.com/Rohit-kushwah69

Professional Summary

Aspiring Data Scientist skilled in Python, Statistics, Machine Learning, Deep Learning, and Generative AI, seeking to apply data-driven problem-solving skills to build practical and impactful AI solutions.

Education

Bachelor of Technology (B.Tech) in Information Technology 2021 – 2025

Maharana Pratap College of Technology, Gwalior CGPA: 7.0

Work Experience

Naresh I Technologies, Hyderabad September 2025 - Present
Data Science Intern Hyderabad, India

- Working with Python, Statistics, Data Analysis, Machine Learning, and Deep Learning.
- Performing EDA, data preprocessing, model development, and exploring LLMs, RAG, and LangChain.

PN Infosys, Gwalior March 2024 - September 2025
MERN Full Stack Developer Intern Gwalior, India

- Developed and deployed full-stack web applications using MongoDB, Express.js, React.js, and Node.js.
- Built responsive interfaces, REST APIs, authentication, and database-driven features.

Projects

Customer Churn Prediction using Machine Learning </>

- Built an end-to-end machine learning model to predict customer churn using demographic and service usage data.
- Performed data preprocessing, feature engineering, EDA, and classification model development.

California House Price Prediction </>

- Developed a regression model to predict California house prices using housing and demographic features.
- Evaluated model performance using RMSE, MAE, and R^2 score.

GenAI Medical Imaging Agent </>

- Developed a GenAI-based agent for medical image analysis and intelligent information retrieval.
- Integrated LLMs, RAG, embeddings, and LangChain for AI-powered responses and analysis.

Technical Skills

Programming & DB	Python, SQL Server
Data Science & ML	Statistics, Data Analysis, Data Cleaning, Preprocessing, EDA, Feature Engineering, Machine Learning, Model Evaluation
AI & GenAI	Deep Learning, NLP, LLMs, RAG, LangChain, LangGraph, Embeddings
Libraries & Tools	Pandas, NumPy, Scikit-learn, TensorFlow, Matplotlib, FastAPI, FAISS, Pinecone, Git, GitHub, VS Code, Jupyter, Docker
